

Sub Agent

The Role:

As a Sub Agent you will be responsible for assisting the construction manager on Birmingham Resilience both the pipeline element and the structures. In order to achieve required project delivery to the customers' objectives, while maintaining standards of health and safety, quality, environmental impact and cost control.

Key Responsibilities:

Site Management

- Maintain commercial performance of the contract
- Be responsible for the successful delivery of projects
- Produce and manage the project programme and supervise the delivery of it
- Understand and interpret drawings and specifications
- Provide engineering expertise and support to the project team
- Ensure all staff, subcontractors and visitors are properly inducted, meet the competencies required of them and hold relevant qualifications and tickets
- Undertake an ambassadorial role, representing the Business to customers, the public and official bodies
- Deliver end product to customer satisfaction
- Produce good quality, accurate monthly reports for the Client and internally
- Chair weekly site meetings in line with Company procedures
- Obtain all 'as built' information ensuring that it is accurate and relevant

Health, Safety, Environment and Quality

- Comply with Company procedures and legal obligations at all times, promoting best practice
- Promote the Barhale cardinal rules and establish safe working cultures and practices and environmental compliance
- Maintain and manage construction sites and subcontractors, developing positive working relationships
- Oversee and ensure that all HSEQ-related documentation is kept up to date and briefed as necessary
- Ensure that daily, weekly and monthly inspections are carried out and all audits and reports are produced
- Liaise with relevant third parties and government agencies
- Ensure that the QA file is produced and maintained
- Ensure the work is delivered snag/defect free and on time

Cost control

- Populate and manage the Barhale cost plan for the project
- Maximise project value and maintain commercial tension to drive out cost and challenge the status quo
- Ensure detailed site diaries/records are completed

Managing resources

- Deal with any actual or potential problems with resources promptly
- Ensure that records of resources are complete and accurate
