## Section Engineer

### The Role:

The role of the Section Engineer is to plan, provide engineering control and supervise production resources, ensuring compliance with project and company systems for a defined section of the works.

### Key Responsibilities:

#### Health, safety and environment

- Promote the Barhale Cardinal Rules and establish safe working cultures and practices
- Comply with company procedures and legal obligations
- Promote and comply with environmental compliance
- Deliver the works safely

#### Quality

- Promote best practice
- Comply with Company procedures
- Ensure work is delivered defect/snag free
- Carry out instrumental checks in accordance with the agreed guidelines and schedule
- Complete records of quality audits in accordance with agreed procedures and timescales i.e. at the end of works
- Give feedback to the Site Agent regarding areas where corrective action needs to be taken with the appropriate level of urgency, of the risks associated with non-conformance during inspections

#### Engineering control

- Understand and interpret the drawings and specifications
- Provide engineering expertise and support to the project team
- Ensure accurate implementation of all engineering controls
- Produce accurate 'as built' records of the works
- Produce Inspection and Test Plans for all elements of the works and supervises the delivery of the plan
- Measure and report compliance with systems and required standards
- Produce risk assessments and method statements for safe execution of the works

#### Managing resources

- Deal with any actual or potential problems with resources promptly liaising with the Site Agent where necessary
- Ensure that records of resources are complete and accurate
- Organise and conduct toolbox talks and issue specific method statements in line with organisational and legal requirements
- Develop and maintain positive working relationships between operatives and staff; client and contractor; suppliers and contractors; public and contractors; and sub-contractors and contractors
