## Mechanical Fitter

### The Role:

The mechanical fitter will be part of our installation teams working on the Integrated Operational Solutions (IOS) Framework for the Anglian Water AMP 6 Programme. This is a long term opportunity – we are looking at a further 14 years work, with the work being in a 50 mile radius of Northampton. This role requires mechanical equipment to be installed to predominantly Anglian Water water and waste water sites, ensuring health and safety is adhered to at all times and that issues are resolved in a timely and effective manner.

### Key Responsibilities:

- Install mechanical equipment to water treatment works (Anglian water) to Barhale standards
- Work closely as per risk assessments and method statements to make sure health and safety is strictly adhered to at all times
- Ensure following of all Company and client rules
- Actively engage with management in the planning, organizing and delivery of work
- Assist team leaders with day to day operations on site
- Identify site issues and report to team leaders to ensure resolution

### Key measures & targets

Deliver projects to water industry standards within the IOS Framework, on time and to budget

### Key relationships

- Team leaders
- Site teams

### Person Specification:

The successful candidate is likely to meet all of the following criteria:

#### Essential

- Significant experience within a mechanical fitting background and of pumps and pipe installations
- CSCS card
- First aid training
- Manual handling
- Water hygiene card
- Excellent communication skills
- Self-motivated team member
- Enthusiastic and ambitious personality
- Clean driving licence

#### Desirable

- Pipefitting/welding experience
- SSSTS qualification
