Quantity Surveyor

The Role:

This role involves working for the Integrated Operational Solutions (IOS) Framework for the Anglian Water AMP 6 Programme, to provide commercial support to the project team, maintain commercial information and ensure compliance with contractual requirements. The Quantity Surveyor will liaise with the customer, customer representatives and other third parties on commercial issues including agreement of variations, claims and any additional payments.

Key Responsibilities:

Processes

- Help ensure that commercial processes are adhered to across the business unit and actively seek to improve processes and procedures
- Have a good understanding of the processes and procedures used by any JV/Alliance that we are working within and assist in their development and improvement
- Ensure final accounts are prepared timely and accurately
- Collate actual costs in accordance with the respective work breakdown structure and capture all cost base requirements
- Ensure financial information for audits is collated and cost assurance processes are followed

Reporting

- Ensure robust, accurate and timely cost and value reporting at both project and business unit level
- Ensure accurate cash flow reporting takes place
- Carry out cost management including forecasting
- Update the monthly CVR, cost and commercial plans

External relationships

- Help ensure that any main contracts entered into have terms and conditions that are appropriate for Barhale, with commercial risks identified
- Ensure that the supply chain are engaged appropriately with the correct contract terms and conditions
- Build and maintain good client relationships
- Be responsible for subcontract letting, negotiation and financial accounting
- Prepare applications for payment
- Liaise with the client, client representatives and other third parties on commercial issues, including agreement of variations, claims and additional payments

Internal relationships

- Work with site management to forecast predicted spend and cash recovery and ensure that both are kept in line with target
- Be proactive and advise site teams on costs and management of costs
- Share best practice with others
- Coach/mentor and develop Assistant Quantity Surveyor
- Work effectively with the commercial team, including cost clerks and commercial support staff and ensure effective interaction between them and operational site teams
