

come and work with us

The Barhale logo consists of a white square with a yellow circle inside, followed by the word "Barhale" in a bold, white, sans-serif font. The background of the top section of the page is a photograph of construction workers in orange safety gear and white hard hats, standing on a metal railing against a blue sky with white clouds.

Estimator

The Role:

The Estimator will assist in the preparation of estimates for civil engineering works in accordance with Company estimating systems and procedures, working with other members of the tender teams to secure sufficient work by value and type, in order to meet Company objectives.

Key Responsibilities:

Preparation of tenders

Undertake quantity take-offs, both manually and digitally, from tender documents and drawings

Produce Bills of Quantities to the appropriate Method of Measurement in either spreadsheet or Candy Estimating Software format for Estimators and subcontract or material enquiries

Liaise with the Engineering Team on the design element of design & construct tenders and providing temporary works support for tenders

Liaise with Supply chain Team to provide subcontractor and material allowances within tenders

Collation of enquiry documentation

Liaise with the procurement department to ensure documentation is complete before enquiries are sent out

Resource database

Maintain and regularly publish agreed rates and prices for labour, plant and materials

Cashflow data

Produce Cashflow Profiles for all tenders, from estimate data provided by Estimators, for review and presentation at adjudication

Bid submission

Assist the bid submission team in the preparation of tender submissions

Ensure ownership of bid submissions and issue handover documents following contract award

Miscellaneous

Carry out any other duties as requested by the department head or Estimators in order to assist with securing work for the business

Key measures & targets:

Delivery of sufficient work by value and type to meet the Company's objectives

Developing a coherent and consistent tender submission with the use of key estimating assumptions

Developing a tender win strategy alongside the business unit teams and issuing handover documents following the contract award

Providing temporary works support for tenders and for the design element of design and construct tenders
