

Projects Commercial Manager

The Role:

Here within the @one Alliance we are a totally collaborative organisation made up of our seven partner companies (Anglian Water, Balfour Beatty, Barhale, MMB, MWH Treatment, Skanska and Sweco) and our extended supply chain, delivering over half of Anglian Water's capital investment programme.

We are heading into our latest Asset Management Period, known as AMP 7 and this will see us deliver a £1.4bn programme of work over the next five years. Are you ready to join us as we gear up to deliver the most exciting and innovative AMP we have ever seen?

Our ability to ensure maximum efficiencies are gained and full compliance with Anglian Water governance procedure is achieved will come under greater scrutiny as we look to meet our ambitious objectives for AMP7. To help us achieve commercial excellence across a range of programmes of work, we are looking for a Projects Commercial Manager to join the team specifically supporting on our Water and Water Recycling Infrastructure projects!

What will you be doing as our new Projects Commercial Manager?

As our new Projects Commercial Manager you'll be accountable for the commercial and cost management of a project or programme of projects from inception to close out reporting directly to an IPL (Integrated Projects Leader.)

Using your expertise and commercial nous, you'll challenge current commercial thinking and agreements to the IPL and their team on all project matters as you look to leave a positive and lasting impression across the Alliance.

Key Responsibilities:

- Ensure robust estimates are provided that are aligned to scope and makes due allowance for all risks and opportunities.
- Manage the procurement process ensuring that all strategies are developed and agreed and that tender processes are followed correctly.
- Subcontractors are properly managed in accordance with contract requirements including: compliance, communications, payments, compensation events and programme submissions.
- Ensure robust cost management is undertaken at all times including: accurate live forecasting and actual costs vs estimates.
- Ensure that accurate and trusted records are kept so that all financial information for audits and cost assurance is readily available.
- Continually strives to develop processes and procedures to ensure standardisation across the commercial teams delivery process
- Looks to develop members of the team with commercial knowledge and experience gained over numerous years in industry.

Person Specification:

To be considered for this Alliance critical role, you'll have a passion and track record of delivering projects or programmes whilst maximising efficiencies in the most cost-effective fashion. With the ability to collaborate and integrate with a wide- range of teams focussing on vastly different objectives, you'll be confident in making decisions by using your commercial expertise to influence business decisions.

Able to juggle a number of projects and tasks at the same time, you'll be confident in professionally challenging current ways of working to drive continuous improvements across the business.

Benefits:

As well as offering a competitive salary, remuneration for this role includes flexible benefits, which provides a range of guaranteed benefits including but not limited to:

- 5% Company pension contribution
- Life Assurance at 2 x notional salary
- Single persons private medical cover
- Permanent Health Cover

In addition you may be eligible for entry into the Company's non-contractual bonus scheme, based upon, among other things, the performance of the employee and of the business unit and/or Company.

About Barhale:

Barhale is one of the largest privately owned civil engineering and infrastructure specialists with 40 years' experience working UK-wide across the water, transport, built environment and energy sectors. Founded by our Chairman, Dennis Curran in 1980, the group was originally set up as a specialist tunnelling contractor. Whilst we retain our tunnelling roots, repeated success in several sectors of the construction industry has enabled us to expand our skill set and become one of the largest privately owned infrastructure specialists in the UK.

What we do

We provide design, construction and maintenance services to the following sectors;

- Water
- Transport
- Energy
- Built Environment

We also possess a range of specialist skills to support our civil engineering and infrastructure activities including

- Tunnelling
- MEICA capabilities
- In-house design
