Approved Electrician

The Role:

This experienced Commercial/industrial electrician will form part of a newly developing team working in London and across the Thames Valley, typical works involve the setup, installation and testing of power supplies to construction site setups and installation of power and control circuit on small to medium value projects for Barhale's clients, such as Thames Water.

This an excellent opportunity to form part of a new electrical team being formed within an already successful and ever-expanding civil engineering business.

Key Responsibilities:

Install, maintain and repair electrical systems and equipment within the water/wastewater industry, including armoured cabling and panel modification.

Read panel drawings.

Undertake the role of competent person working under an electrical site supervisor, reporting back on progress/issues daily

Carry out some scoping of works and assist site team leaders with RAMS

Maintain a good company image, working closely with Thames Water and Affinity Water, ensuring all rules are followed maintaining a safe system of work

Carry out inspection and testing of installed systems and equipment to fill in NICEIC certification on a company-issued tablet.

Key measures & targets:

Adherence to all deadlines set

Ensure all health and safety rules are followed

Ensure installations are completed to high standards to program timetable

Report progress and issues found on-site to electrical site supervisor daily

Key relationships:

Barhale team and the wider community

Person Specification:

The successful candidate is likely to meet all of the following criteria:

Essential

Benefits:

As well as offering a competitive salary, remuneration for this role includes flexible benefits, which provides a range of guaranteed benefits including but not limited to:

- 5% Company pension contribution
- Life Assurance at 2 x notional salary
- Single persons private medical cover
- Permanent Health Cover

About Barhale:

Barhale is one of the largest privately-owned civil engineering and infrastructure specialists with 40 years of experience working UK-wide across the water, transport, built environment and energy sectors. Founded by our Chairman, Dennis Curran in 1980, the group was originally set up as a specialist tunnelling contractor. Whilst we retain our tunnelling roots, repeated success in several sectors of the construction industry has enabled us to expand our skillset and become one of the largest privately-owned infrastructure specialists in the UK.

What we do

We provide design, construction and maintenance services to the following sectors;

- Water
- Transport
- Energy
- Built Environment

We also possess a range of specialist skills to support our civil engineering and infrastructure activities including

- Tunnelling
- MEICA capabilities
- In-house design
- A steel-fabrication and supply subsidiary (BCS Group)

Who we are

Barhale operates as a tier 1 partner for blue-chip, regulated and private clients. We work as part of large frameworks, joint ventures and alliances, as well as on individual projects developing long-standing relationships based on Trust, Integrity and Pride.
