

come and work with us

Senior Design Manager

The Role:

Here within the Anglian Water @one Alliance we are a totally collaborative organisation made up of our seven partner companies (Anglian Water, Balfour Beatty, Barhale, MMB, MWH Treatment, Skanska and SWECO) and our extended supply chain, delivering over half of Anglian Water's capital investment programme.

Now working in the latest Asset Management Period, known as AMP 7, we are working towards delivering an approximate £1.3bn programme of work until 2025. Are you ready to join us as we aim to deliver the most exciting and innovative AMP we have ever seen?

To remain at the forefront of the Water industry, our ability to work more efficiently by maximising our resources and engineering outputs both internally and externally will be under further scrutiny. With this in mind, we are looking for a Senior Design Manager (Non-Infrastructure) to join our Delivery team and deliver high quality resources and outputs to enhance technical design delivery efficiency.

What will you be doing as our new Senior Design Manager?

As our new Senior Design Manager, you'll be fully responsible for all aspects of design for assigned non- infrastructure projects, including managing resource and engineering outputs. You'll be responsible for CDM principal designer duties ensuring technical outputs meet the requirements of TOTEX delivery process, as well as meeting project affordability within timescale agreed with the project teams whilst providing technical support during assembly. Within this role, you'll act as the deputy to the @one alliance Head of Engineering for all design activities related to Non-Infrastructure.

Key Responsibilities:

- Complete designs as required aligned with the @one alliance procedures and project needs whilst embracing BIM360 and owning the development of 3D models for all projects
- Ensure that the change control process and technical query process are adhered to on all projects
- Embrace and adopt standard products
- Apply innovative thinking to generate ideas to improve the efficiency of @one design activities; implement these ideas
- Plan resource as required ensuring 'best for task' principles are upheld and individual development goals for all engineering staff are achieved
- Maintain excellent stakeholder communications across the alliance by acting as a key interface between Operations, Construction and Commissioning
- Ensure that the engineering team is working effectively and delivering appropriate design deliverables on a right first-time philosophy
- Drive excellence in Health and Safety in design. Eliminate hazards and reduce risks during design
- Utilise the skills and knowledge of all team members; encourage an environment of continuous improvement where coaching and mentoring is provided to keep energy, focus and morale as high as possible

come and work with us

Person Specification:

To be considered for this exciting opportunity within the @one Alliance, you'll ideally hold a relevant Engineering degree and have extensive experience in a technical role. You'll demonstrate experience with the management of designs and multi-disciplinary projects and the capability to inspire, encourage and support others to achieve critical tasks and outcomes within non- infrastructure projects.

You'll manage situations proactively, with the ability to think and plan ahead as well as owning excellent organisation skills in order to organise own and team's workload and priorities. You'll show resilience by maintaining energy and focus when under pressure and experiencing significant setbacks alongside being open to new challenges and provide the drive to continuous improvement.

If the opportunity to make a real difference in a nationally recognised and respected alliance appeals, please apply today!

Benefits:

As well as offering a competitive salary, remuneration for this role includes flexible benefits, which provides a range of guaranteed benefits including but not limited to:

- 5% Company pension contribution
- Life Assurance at 2 x notional salary
- Single persons private medical cover
- Permanent Health Cover

In addition you may be eligible for entry into the Company's non-contractual bonus scheme, based upon, among other things, the performance of the employee and of the business unit and/or Company.

About Barhale:

Barhale is one of the largest privately owned civil engineering and infrastructure specialists with 40 years' experience working UK-wide across the water, transport, built environment and energy sectors. Founded by our Chairman, Dennis Curran in 1980, the group was originally set up as a specialist tunnelling contractor. Whilst we retain our tunnelling roots, repeated success in several sectors of the construction industry has enabled us to expand our skill set and become one of the largest privately owned infrastructure specialists in the UK.

What we do

We provide design, construction and maintenance services to the following sectors;

- Water
- Transport
- Energy
- Built Environment

We also possess a range of specialist skills to support our civil engineering and infrastructure activities including

come and work with us

- Tunnelling
- MEICA capabilities
- In-house design
- A steel-fabrication and supply subsidiary (BCS Group)

Who we are

Barhale operate as a tier 1 partner for blue chip, regulated and private clients. We work as part of large frameworks, joint ventures and alliances, as well as on individual projects developing long-standing relationships based on Trust, Integrity and Pride.

Our People

We employ a direct workforce of over 800 employees nationwide. We recognise that our business is only as good as the people we employ, which is why we value them so highly and invest in regular training and development, utilising our dedicated training facility in Walsall.

How to apply:
