Site Manager – Anglian Water IOS (Integrated Operational Solutions)

Integrated Operational Solutions (IOS) Alliance – Part of the Anglian Water network, the IOS was set up in 2015 to concentrate on water recycling solutions and the clean water base. The maintenance and refurbishment of the key infrastructure is managed by our partners Barhale, Kier and Morrisons they ensure everything is maintained and improvements made where necessary to ensure the infrastructure's longevity and effectiveness.

What you will be doing as our new Site Manager?

You'll be based on designated sites in the area, you'll be responsible for the day-to-day management of Supervisors, delivery teams and sub-contractors on site. You'll look to ensure resources are utilised correctly to ensure efficiency is achieved and we optimise our workforce to meet deadlines.

Furthermore, you'll be expected to carry out the implementation and monitoring of health, safety, quality, and performance standards and ensure all work meets required water industry regulations and Anglian Water-approved standards including POSWSH.

Responsibilities:

- Accountable for SHEQ performance of Projects, including undertaking and recording findings of periodic SHEQ visits
- Responsible for all Health and Safety issues on site, completion of paperwork, including weekly safety & environmental inspections, toolbox talks, site-specific risk assessments & method statements
- Act as a Health & Safety ambassador across the organisation by driving cultural change into the Delivery/Design Teams to eliminate/minimise physical and nonphysical waste – i.e., recycling techniques, workshop recharges, standing time etc.
- Oversee the management of multiple concurrent projects by proactively managing site-based Supervisors and Delivery Teams ensuring safety, quality and time frames drive performance
- Provide regular updates on progress (time, cost, and quality) to the Construction Manager and other key internal stakeholders
- Responsible for delivery of projects in line with tender allowances and agreed programmes of work, actively managing any slippage
- Proactively support planning responsibilities to ensure initiatives are implemented with minimal disruption, these include resourcing, project requirements and estimations
- Procurement of plant, materials and specialist subcontractors using an appropriate financial management accounting system to ensure projects are delivered within tender allowances

A little bit about your skills, experience, and behaviours....

To join the IOS Alliance in our quest for industry-leading site management, you'll have knowledge and experience in the water industry alongside your extensive experience in Civil and Mechanical construction. Understanding the importance of site safety, you'll have a certificate in Site Safety Management (or attended a 5-day course) and hold a relevant CSCS card.

Operating with commercial savvy and awareness in all that you do, you'll be an approachable and supportive team manager and have experience in leading site teams

come and work with us

towards established goals. Your strong communications skills will allow you to build strong relationships across the organisation and influence and challenge where appropriate.

Whilst you understand the need to deliver projects to the right standards and on time, you'll never compromise safety and ensure it is at the heart of all we do.

Location:

To cover all the IOS Sites including Great Billing and Thorpe Wood House will be the base of operations but will be required to work on AW assets in the Ruthamford area. Approximately 30-mile radius around Northampton.

How to apply:

Please send your current CV and cover email outlining your suitability for the role and quoting the reference number to careers@barhale.co.uk
