

## **Electrical Site Supervisor (IOS) – Integrated Operational Solutions**

Here within Anglian Water, we collaborate with a number of alliance partners to provide the best water and water recycling services across the region by maintaining our existing assets and undertaking new projects to safeguard future water supplies.

Playing a key part in our drive to bring environmental and social prosperity to the region we serve through our commitment to Love Every Drop is our Integrated Operational Solutions (IOS) Alliance. Comprising Anglian Water, Morrison Water Services, Barhale and Kier, the IOS Alliance work together to concentrate on solutions across the water recycling and clean water asset base, typically totalling £50-60m per year.

With hundreds of projects across the region and the need to deliver customer satisfaction within the water industry at the highest it has ever been, how we manage and execute projects has never been under as much scrutiny as now.

To ensure wastewater projects in the Northamptonshire area are managed successfully from inception to completion, ensuring Health & Safety standards and time frames are met, we are looking for an Electrical Site Supervisor to join the team full-time.

### **What you will be doing as our new Electrical Site Supervisor?**

#### **Job scoping**

- Visit sites before schemes start to scope for design information,
- Liaise with Electrical Design Engineers
- measure up and order materials.
- Liaise with Project teams on the timeframe and labour requirement.
- Write RAMS for Schemes
- Collate site M&E drawings.

#### **Authorised person responsibilities.**

- Complete the initial electrical site safety report before each job commences.
- Issue permits when required.
- Oversee electricians or electrical subcontractors, issue commissioning engineer's permits and assist with the commissioning phase.
- Complete electrical site safety audits and electrical completion paperwork
- Ensure safe working practices and electrical safety rules are followed by electricians on site.

#### **Administration**

- Mark up red line drawings for as-builts when schemes are completed.
- Ensure NICEIC certificates are fully completed and issued to the Qualified Supervisor for sign-off.

#### **Key measures & targets:**

- Ensure all paperwork is completed as required.
- Completed permits and RAMS returned to the electrical manager on a regular basis.
- Ensure the Outlook calendar is kept up to date.

# come and work with us

- Ensure all drawings are procured and issued to site teams for the commencement of work.
