

come and work with us

As part of your application, please include a cover letter addressing the following points:

- Why are you interested in joining the Anglian Water @one alliance?
- What behaviours and values will you bring to the role and Anglian Water @one alliance?

Graduate Quantity Surveyor

Here within the Anglian Water @one Alliance, we are a totally collaborative organisation made up of our seven partner companies (Anglian Water, Balfour Beatty, Barhale, MMB, MWH Treatment, Skanska and SWECO) and our extended supply chain, delivering over half of Anglian Water's capital investment programme.

We are gearing up for our most exciting and challenging Asset Management Period yet, known as AMP 8, this will see us deliver a programme of work larger than we've ever delivered before. We are driving change, empowering us to set global benchmarks and build a better environment, with the opportunity to offer enhanced growth and development to our workforce. We're looking to build on our existing teams with an environment for career progression.

To do that we need aspiring driven talent to help us achieve our ambitious targets, are you ready to join us as we prepare to deliver the most creative and innovative AMP we have ever seen?

To play a key supporting role in the commercial and cost management of a project or programme of projects from inception through to close out, we are looking for an enthusiastic and eager Graduate Quantity Surveyor to join the team!

What you will be doing as our new Graduate Quantity Surveyor?

As our new Graduate QS, you'll act as the commercial conscious to the integrated delivery team, providing commercial support to both the delivery management and on-site delivery teams.

Embracing the outperformance mentality, you'll ensure that operations are carried out to control costs, maximising value, minimising future liabilities and maintaining the required standard of quality and safety.

In addition, you'll develop your soft skills and understand the importance of an efficient and proactive commercial team in a dynamic and robust environment.

Responsibilities:

- Assist the programme area Estimating team to ensure robust estimates are provided that align to scope and make allowance for risks and opportunities including any necessary analysis, transfer of data to the Alliance Procurement system and Cost Base
- Work closely with the Cost Manager, Procurement team, Construction Manager and Project Delivery Manager in preparing Subcontracts and procurement strategies and ensuring they reflect agreed scope.
- Produce accurate live forecasting, considering the programme and reporting in accordance with the respective work breakdown structure/cost breakdown structure.
- Ensure actual costs are monitored and assessed against a baseline, value of work done, solution cost progress, affordability challenges and final outturn calculations.

come and work with us

- Provide reports on actual costs vs. estimates & identify underlying reasons for any variance & resolutions, highlight, challenge & resolve variance to the latest plans.
- Assist the Cost Manager in ensuring that all project team members (including site staff) understand the contractual arrangements, to satisfy Client and partner organisation requirements.
- Ensure that proper records are kept & maintained so financial information for audits and cost assurance is readily available.

A little bit about your skills, experience, and behaviours....

To join us for this development opportunity, you'll be currently studying for, or have completed, a degree level (or equivalent) qualification in an engineering/ management/ cost discipline and have a passion for pursuing a career in a commercial-based role. With excellent IT skills (specifically Excel), you'll be open to and able to communicate with a wide range of audiences. Acting as a proactive team member, you'll have strong organisational and prioritising skills to underpin your enthusiasm and thirst to learn to make a positive impact.

If you are looking for an opportunity to add tangible experience to your academic studies and develop your skills to launch a career within commercial, please apply today!
